Deliverable #0: 22<sup>nd</sup> of March

---

**Goals:**

- Find your team members and form a team (2-3 members per team)
- Find a challenging project that exists in real world. Discuss with your team members and come up with a good idea.
- Present your idea (PPT presentation) on 22<sup>nd</sup> of March at 4 Pm. The presentation should include:
  - Title of the project
  - Team members
  - Project description
  - Prototype design that describes the Activity screen flow (try <https://www.figma.com>)
  - Database (SQLite, FireBase, FireStore)
  - Create a github link and share the link
